ABOUT ME

I've been studying computer science for two years. In order to kick-start my career before I graduate, I am looking for a job of a web developer, since that's what I've been doing already for four years in my free time. Designing websites for friends, developing simple e-shops with the help of some open source content-management systems, and so on. Besides that I am a normal guy who enjoys hiking and spending time with friends, while not working or studying, which takes most of my time of course. If I should pick the best website I've designed up to this point. I am ambitious and hard-working and believe you'll give me a chance to prove my words.

Education

- 12th Standard, Computer Science

D A V Public School
CBSE
Jamshedpur, Jharkhand

Completed, May 2023
Marks 91 %
Division I
